

Thomas Klein, Head Oncology Patents, F. Hoffmann-La Roche Ltd

Thomas Klein oversees the Roche Oncology patent portfolio. This includes patents covering early and late stage development compounds as well as marketed products. He advises Senior Management on Freedom-to-operate aspects for these molecules. His profound experience includes both filing and prosecution of patent applications. He successfully litigates small molecule and biotech patents in many jurisdictions. Being a Ph.D. molecular immunologist by training, he is also highly experienced in patent matters relating to biosimilars and biobetters. Prior to joining F. Hoffmann-La Roche Ltd in 2004, Thomas Klein counseled Biotech patent matters at Boehringer Ingelheim as European Patent Attorney. Thomas Klein is a Swiss and European Patent Attorney. He graduated with a Ph.D. in molecular immunology from the German Cancer Institute in Heidelberg and University Stuttgart-Hohenheim.
